EXECUTIVE ZOOM CALL

Your call just works.

Everything an executive call needs, run by a crew that has done it hundreds of times.

1,000+
events produced

24 hrs
of testing before every show

2×
backup on every critical part

What you're paying for

Four parts. Each one removes a way the call could go wrong.

Sound — $2,000

Every voice is clear, in the room and on the call. No echo, no "can you hear me?"

Video & Computers — $2,500

The call won't freeze or drop. If anything fails, the backup takes over in seconds.

Screens — $900

Everyone in the room sees remote guests and slides clearly, from any seat.

Crew & Rehearsal — $3,900

A professional watches every second and fixes problems before anyone notices.

Why not just plug in a webcam?

For a team meeting, you could. When leadership is on camera, small failures get expensive.

DOING IT YOURSELF	WITH 368 × HELLHOUND
One laptop runs everything	**Two computers. One is always a live backup.**
Building Wi-Fi	**Dedicated wired internet, plus a cellular backup**
The laptop mic picks up the whole room	**A mic for every speaker, mixed live**
Someone on staff figures it out	**An engineer who has done this hundreds of times**
The first test is when the call starts	**A full rehearsal the day before**

YOUR INVESTMENT

$9,300

Equipment, setup, rehearsal, and a full crew on show day.

Next step: a 15-minute walkthrough of your room and run of show.
